

Fashion Construction

FCCLA STAR Events Information

(Students Taking Action with Recognition)

Fashion Construction is an individual event that recognizes participants who apply Fashion Construction learned in Family and Consumer Sciences courses and create a display using samples of their skills. Participants construct, in advance, a garment or ensemble that dresses both the upper and lower body of a child/adult. Garment/ensemble must include at least eight fashion construction techniques. Competitors display the finished product along with appropriate accessories. *Event is offered to members in the following categories: Senior (grades 10-12), Occupational (grades 10-12)*

Examples of Fashion Construction Projects:

“My project was to construct a royal purple flared skirt with a tie end around the waist. During this project I had to use skills that I learned in my fashion class at school. For example, I used pattern marking skills to shorten the skirt to knee length. Doing this project helped me to learn new skills that I hadn't learned yet in class.” Connecticut FCCLA Member

“My project consists of a fit-and-flare dress with front and back pleats. Not only does the dress demonstrate the skills I've accumulated over my three years in the Textiles and Clothing pathway, but the garment also accurately reflects my personal style due to its comfort and versatility.” Delaware FCCLA Member

“My project, Challenge Accepted, is a learning experience that I plan to continue to grow and succeed from, in learning more about the knowledge and skills required to make an item of clothing. It was an eye opening project that taught me many things about myself and skills needed outside of the construction of a garment. In my project, I created a dress that showed my ability to take on a challenge and accept the discipline in making a dress. Planning and preparation is key to a successful goal in mind. This was one of the many things that my project taught me is important.” Idaho FCCLA Member

“I began this project as I needed a garment for my inducement into National Technical Honor Society. Using my skills from Apparel classes and help from my adviser, and my sewing mentor, I created an ensemble to fit me perfectly. The garment was completed for fewer than 50 dollars, and perfectly suits my personal aesthetic.” North Carolina FCCLA Member

Fashion Construction by the Numbers:

2017-2018

Participants Nationwide: 267

Categories: Senior, Occupational

Type of Event: Career Focused

Nationwide Impact: 12,246 people

90% of Fashion Construction participants indicated this event is extremely or very useful to their future.

52% of Fashion Construction participants indicated they would pursue higher education related to the career chosen in their project.
