

Young people explore, understand, and appreciate diverse aspects of families and family life.

Families First is a national FCCLA peer education program guides students to develop, plan, carry out, and evaluate activities to improve the quality of life for their families and other families in their communities.

Through their projects, students experience character development and improve their critical and creative thinking, interpersonal communication, leadership, practical knowledge, and career preparation. In addition, as we live in an ever-changing society, Families First recognizes the need for students to know how to create strong family relationships where skills are developed, differences are accepted, rights are respected, and support is offered.
