

Youth leaders learn more about themselves, the workplace, and careers so that they can put themselves on the pathway to future success.

Career Connection is a national FCCLA peer education program that guides students to develop, plan, carry out, and evaluate projects to discover their strengths and then develop and practice career-ready skills. Through their projects, members experience career preparation and improve their critical and creative thinking, interpersonal communication, practical knowledge, and real-world skills.

Career Connection guides students to discover their pathway through four essential units.
