

Fashion Construction

FCCLA STAR Events Information

(Students Taking Action with Recognition)

Fashion Construction is an individual event that recognizes participants who apply Fashion Construction learned in Family and Consumer Sciences courses and create a display using samples of their skills. Using new materials, participants construct, in advance, a garment or ensemble that dresses both the upper and lower body of a child/adult. Garment/ensemble must include at least eight fashion construction techniques. Competitors display the finished product along with appropriate accessories.

Project Connections

Top 5 Skills Students Report Learning Through Participation

Creativity	Self-Confidence
Decision Making and Problem Solving	Public Speaking
Responsibility and Time Management	

Career Clusters

National Family and Consumer Sciences Standards

Reasoning for Action Comprehensive Standard	16.0 Textiles, Fashion, and Apparel
2.0 Consumer and Family Resources

Examples of Fashion Construction Projects:

I am constructing a flattering and eco-friendly dress. The Tencel lyocell fabric is made through a closed cycle chemical process, and because it's made from eucalyptus trees, my garment will be biodegradable. – California FCCLA Member

I have been dancing for 14 years and wanted to make a costume of my own for the first time. It was a lot of fun to cut, measure, and sew the dress together and make it whole. At time I found it challenging to sew some pieces together and get them lined up just right but when they did it was like sewing magic. – Florida FCCLA Member

I've constructed a brightly colored gown based off of a design of mine that was inspired by water colors. I've worked on this gown for the past 5 months and have both learned new skills and practiced other skills involving sewing and fashion and textiles. As well as valuable leadership skills like patience and problem solving. This project has taught me many valuable things and I'm happy with the end product. – Indiana FCCLA Member

Fashion Construction by the Numbers:

2019-2020

Participants Nationwide: 266

Levels: 2 (grades 9-10), 3 (grades 11-12), 4 (Postsecondary)

Type of Event: Career Focused

Nationwide Impact: 10,241

90% of Fashion Construction participants indicated this event is extremely or very useful to their future.

52% of Fashion Construction participants indicated they would pursue higher education related to the career chosen in their project.

This information sheet does NOT include the guidelines for competition. To prepare for competition, affiliated FCCLA Chapters and Members should download the complete Competitive Events Guide in the FCCLA Adviser and Student Portals.
