### Examples of Interpersonal Communication Projects:

*“My project helps to educate parents of infants and toddlers on American Sign Language skills used in some daycare centers. A tutorial video was made to help parents learn these skills. In doing this, the parents and their children can better communicate with one another thanks to this non-verbal method. We hope to see these children grow and develop more successfully as a result of the improved communication.” – Texas FCCLA Member*

*“Our project focused on teaching young student athletes about the importance of verbal and non-verbal communication in sport.” – Minnesota FCCLA Member*

*“This project helped peers get together to talk about grief. High school students who experienced the loss of a loved one got together for weekly meetings. Each meeting consisted of different forms of communication activities where students learned skills that they could take back to their family setting.” – Missouri FCCLA Member*

*“My partner and I did a skit and provided an informational oral presentation to give people ways to strengthen their communication. We are focusing on communication in the family, such as a mother and daughter relationship. We will show what to do and what not to do to settle arguments and to express feelings towards one another.”*
