Examples of Parliamentary Procedure Projects:

"We are conducting a meeting practicing Robert's Rules of Order. Our knowledge of these procedures will be tested throughout the meeting. These skills will be used within our careers and future lives. We hope to be able to become great parliamentarians and leaders in our society." California FCCLA Member

"It will impact our community because we will be more involved in the community since we will know how to act and hold proper meetings. It will help us in our chapter as well because we will help spread our knowledge to the rest of our chapter so we can run successful meetings." Montana FCCLA Member

"This project gave all members of the team better communication skills and leadership skills. This helped in family situations because team members could solve problems more efficiently. It helped in school situations because team members were able to come up with creative solutions to problems in the school." North Carolina Member

"This project definitely made our FCCLA meetings run smoother, and allowed us to be better members of not only our organization, but other organizations and committees on campus as well. As far as the family, knowing how to better function in a group helps us there as well. It taught us patience and understanding that everyone has a voice. We are also better prepared to be an important part of our community and are now qualified to serve on committees for different organizations and perhaps take a part in politics at all levels." Texas FCCLA Member
